Before You Begin

DIFFICULTY, CONTROLS AND THE SCREEN

The title screen. New Game starts in Kochi; Continue loads your last save.

This guide follows the whole of Chapter I: the monsoon night in Kakkanad, the goddess Aurelia, your new life in Dawnmeadow and Solmere, and the war against the eclipse in Eldoria, the Whispering Woods and the Crystal Caverns. It then covers every side quest, the hidden quest, the four heroines, party play, the races of Aurel, crafting and the post-game. Directions follow the in-game map (M): north is up.

Choosing a difficulty

Easy	Weaker, slower enemies; faster healing; +20% XP and gold. Best for the story.
Normal	The intended balance. Dawn's Grace revives you once a day.
Hard	Enemies have 35% more health and hit 30% harder; slower natural healing.
Extreme	Enemies nearly twice as strong; potions 25% weaker; healing halved.
Hell	No Dawn's Grace and no natural healing. Enemies hit like bosses.
Impossible	One life. No revives of any kind; dying erases the save.

Default controls

Move / run	WASD or arrows; hold Shift to run
Attack, talk	Left click, J or Space. Press again for a three-hit combo; hold for a heavy attack
Dodge roll	K. Roll just as an attack lands for a slow-motion perfect dodge
Block / parry	L or hold right click. Block just before a hit to parry and counter
Skills	1 to 4
Divine powers	Z, X, C, V
Burst Art	R when the burst gauge is full; triggers a Link attack from every companion
Potion	Q
Interact	E
Menus	I bag, T skills, O journal, M map, Esc pause

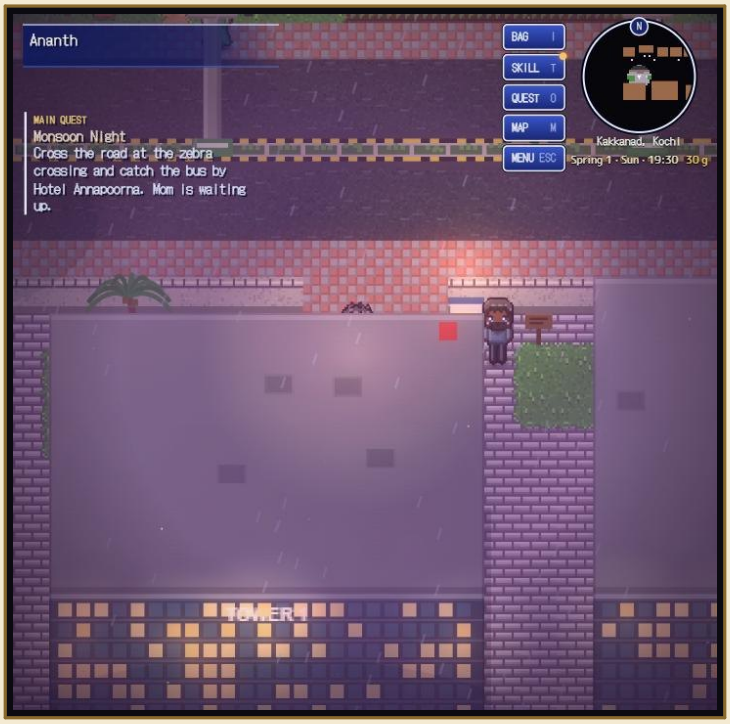

The pause menu: items, wardrobe, journal, Go solo / Regroup party, saves, settings and controls.

> ***Tip.*** *Every control can be rebound under Pause > Controls. Touch screens get an on-screen stick and buttons, and gamepads work too. If the screen effects feel heavy, set Settings > Screen effects to Reduced.*

Prologue: Monsoon Night

KAKKANAD, OUTSIDE INFOPARK

7:30 pm outside Infopark. The road and the bus stop are to the north.

The office cab has left without you. The quest Monsoon Night asks only one thing: cross at the zebra crossing and catch the bus by Hotel Annapoorna. Nothing hurries you, and what you do here follows you into the next world.

Walkthrough

- Talk to Mani, the security guard at the gate. He tells you the cab has gone and where the bus stop is.
- Buy a chaya at Chandran's tea stall (10 rupees).
- Visit Rasheed's juice shop, the bakery, the medical shop and the textile shop. Every door opens.
- Haggle with Babu the auto driver. He will not take you, but it is worth hearing.
- Enter the kalari and talk to Unni. Accept the lesson and finish the drill. This unlocks a hidden power.
- At the bus stop, meet Anu on the phone, Lakshmi, and Thomas with his six-year-old daughter Meenu and her duck umbrella.

The incident

A gust tears Meenu's umbrella away. She runs into the road as a private bus comes. A reaction prompt appears: move at once to pull her back. Saving her earns a hidden power and changes what Aurelia says to you.

> ***Tip.*** *Traffic keeps to the left and honks and brakes for you. Use the zebra crossing anyway; the guard is watching.*

The Divine Space

AURELIA, GODDESS OF THE DAWN

You wake in light before Aurelia. She tells you that your story ended on that road and asks you to save Aurel, where her sun is being eaten. Two of your answers award hidden powers.

Kalari	Finish Unni's lesson at the kalari in Kochi.
Saved Meenu	React in time during the incident.
Asked about the eclipse	Choose "What is eating your sun?" then "You are avoiding the question."
Fell quiet	Choose "(Say nothing. Just listen to the silence.)"

Choosing your powers

You have seven soul points for up to three of the 112 divine powers (Elemental, Physical, Magical, Summoning and Special, from Common to Divine). Filters, search and a compare view help. Spend every point and Fate's Gacha drops one bonus gift from the powers you did not take. Random gifts picks three valid gifts for you.

> ***Tip.*** *A strong first set is one ranged attack, one movement or defensive power and one passive. Powers level up with use and evolve at level 5.*

Act 1: A New Life

DAWNMEADOW

Dawnmeadow: gather stones, branches, reeds and berries. The east road leads to the merchant's cart.

You wake in the grass with a linen tunic and nothing else. The quest A New Life asks you to survive your first hours: gather materials or defeat meadow creatures (Meadow Puffs and Horn Beetles). Either path completes the first stage.

Primitive crafting (Craft tab)

Flint Knife	2 Smooth Stone, 1 Sturdy Branch, 1 Plant Fiber. Fast, with a small crit chance
Branch Club	3 Sturdy Branch, 1 Plant Fiber. Heavy hits
Walking Staff	2 Sturdy Branch, 1 Smooth Stone. Adds magic
Woven Grass Vest	5 Plant Fiber. +2 defence
Herb Poultice	1 Moonleaf, 1 Plant Fiber. Heals 45
Berry Mash	3 Berries. Heals 25

> ***Tip.*** *With bare hands, hold attack to throw a Smooth Stone. It is the safest way to soften Horn Beetles before they charge.*

When the first stage completes, follow the east road to the merchant's cart and ask for a ride to the city.

Act 2: Solmere, City of Guilds

REGISTRATION AND THE GUILD HALL

The Adventurers' Guild is the largest building in Solmere, at the north end of the avenue.

Walk north up the avenue from the cart station to the Adventurers' Guild. Inside, register at the counter to receive your adventurer card. This finishes A New Life.

The guild hall is full of adventurers of every race. Talk to them for tips and rumours.

- The quest boards hold bounties and named elite hunts. Clearing them raises your rank from F to S and unlocks the rank-gated Guild Shop.
- Every building can be entered: inn, tavern, grocer, bakery, clothier, smithy and armory, apothecary, general store, temple, town hall, barracks and homes.
- Townsfolk fill each building and change with the room: worshippers in the temple, a bard and regulars in the tavern, recruits in the barracks.
- Characters without powers (from older saves) can claim them at the temple.
- Carts connect Dawnmeadow, Solmere and Eldoria. Ask at the cart station.

The tavern at night: a bard, card players and a fae traveller by the fire.

The guildmaster sends you east to Eldoria, the last lit village. Take the cart.

Act 3: Eldoria

MAIN QUEST: THE FADING LIGHT

Eldoria's plaza. Elder Maren receives visitors on the steps of the Elder Hall to the north.

Speak with Elder Maren on the steps of the Elder Hall. The Crystal Caverns were sealed with a crescent key generations ago; last winter the goblin warlord Grukk took the Whispering Woods and the key with it. Your task: take the Sanctum Key from Grukk, open the caverns and end what waits below.

Prepare before leaving

- Pick up the side quests from Tobin (farm), Ysra (east gate), Widow Elsbeth and Brannoc the smith. See Side Quests.
- Meet Mimi by the bounty board south-west of the plaza. She asks to team up; accept and she joins at once.
- Serah stands by the east gate. She will not join until Grukk is dead.
- Read the notice board by the guild outpost.
- Check behind the northern cottages for something glimmering: Moonshard 1.
- Buy potions from Odile or Fenn, and armour from Brannoc.

At night lanterns light the plaza and fireflies drift over the grass. Villagers go home in the evening.

Leave through the east gate into the Whispering Woods.

Act 4: The Whispering Woods

GOBLINS, WOLVES AND GRUKK

The forest road. Light shafts break through the canopy on clear days.

The sign at the western entrance reads: north to the goblin warlord, north-east to the old mine road and the Crystal Caverns. Light the Woodland Lantern on the main path and the Riverside Lantern by the river; lit lanterns are fast-travel points.

Points of interest

South-west	Bog Slimes and a chest with 2 Health Potions and a Mana Potion.
South-east	The Ashen Wolf den. Moonshard 2 lies among the bones.
South	The old battlefield: skeletons, soldiers' graves and a chest with a Copper Ring and 25 gold.
East	The goblin camp. Its chest holds an Iron Sword, 2 Health Potions and 40 gold.
River	Lyra studies near the Riverside Lantern. She joins once you hold the Sanctum Key.
North-west	A secret path to the Moon Shrine (see The Lost Locket).

Boss: Grukk the Warlord

Grukk's cut-in. His clearing lies north of the forest road, past the river bend.

Stats	HP 430 · ATK 17 · DEF 4 · drops 260 XP and 80 gold
Cleaver swing	Wide arc at close range. Dodge sideways, not backwards.
Charge	He roars first. Stand in front of a tree, roll away at the last moment; if he hits the tree he is dazed.
Phase 2	Faster swings and shorter pauses. Keep a potion on Q.

Grukk drops the Sanctum Key and Grukk's Cleaver. Serah now joins you at the east gate. Take the north-east mine road to the rune door and use the key.

Act 5: The Crystal Caverns

THE SENTINEL AND THE HOLLOW SOVEREIGN

Cultist mages blink away and fire bolts. Close the distance fast.

Light the Cavern Mouth Lantern at once and the Crystal Hall Lantern further in. Expect venom slimes (carry antidotes), skeleton soldiers and blinking cultist mages.

- Iron Ore nodes sit in the south-eastern halls. Strike a node three times to mine it.
- A cracked wall blocks the far north-west passage. Attack it to break through: Moonshard 3 and a secret chest (Mana Charm, Greater Potion, 60 gold) wait beyond.
- A chest in the far east room holds 2 Greater Potions and 3 Crystal Shards.

Boss: The Eclipsed Sentinel

The guardian of the inner sanctum, in the stone hall north of the crystal rooms.

Stats	HP 660 · ATK 21 · DEF 7 · drops 420 XP and 120 gold
Shield	Blocks every hit from the front. Circle it and strike from the side or back.
Freeze	Freezing powers stop its guard completely.
Quake	Watch the wind-up and roll out of the ring.

The arena is marked by a red ring. Keep your party to its sides.

It drops the Bulwark Plate, and the iron gate north of the hall grinds open.

Final boss: The Hollow Sovereign

Stats	HP 1100 · ATK 23 · DEF 6 · drops 900 XP and 300 gold
Rings of light	Keep moving through them. Standing still is how you lose.
Fade and summon	It fades and calls help. Clear the adds, then return to the Sovereign.
Finish	Save your Burst Art and your strongest powers for its last phase.

Return to Elder Maren in Eldoria to finish The Fading Light: 600 XP and 300 gold.

Side Quests

ELDORIA'S REQUESTS

Slime Trouble (Tobin)	Slay 6 Bog Slimes in the south-west woods, then return to the farm. Reward: 80 gold, 2 Health Potions, 60 XP.
A Cloak of Ash (Ysra)	Collect 4 Ashen Wolf Pelts from the south-east den. Reward: Wolfhide Cloak, 90 XP.
The Lost Locket (Elsbeth)	Find Aldric's locket in the woods. Reward: Silver Brooch, 120 XP.
Ore for the Forge (Brannoc)	Bring 5 Iron Ore from the caverns or the barrow dead. Reward: Warden's Oath pattern, a free upgrade, 100 XP.

Finding the locket

The hidden glade: the Moon Shrine and the locket chest, behind a wall of pines.

Pip says the trees by the old north path look wrong. From the west entrance of the woods, follow the small path north. Where it ends, two columns of pines look slightly different: walk straight through them into the hidden glade. The locket is in the chest beside the Moon Shrine.

Hidden Quest: Whispers in Stone

THE THREE MOONSHARDS

Examine the Moon Shrine in the hidden glade to start the quest, then collect all three Moonshards:

Moonshard 1	Eldoria: behind a cottage on the north side of the village.
Moonshard 2	Whispering Woods: among the bones near the wolf den in the south-east.
Moonshard 3	Crystal Caverns: behind the cracked wall in the far north-west.

Return them to the shrine for the Eclipse Pendant and 250 XP.

The Realms of Aurel

108 CITIES, 108 BOSSES, TWELVE PROVINCES

Beyond Solmere and Eldoria lie the twelve provinces of Aurel: 108 cities, each with its own wilds and its own boss. They are optional, open as soon as you can reach a waystone, and run from level 4 to level 50.

Waystones

A glowing waystone stands in the plaza of Solmere, of Eldoria and of every city in the provinces. Touch one to open the travel list and pick any city of an open province, or return to Solmere or Eldoria. A province opens once you have defeated three bosses in the province before it; the first, the Greenreach, is always open.

What every city has

Adventurers' Guild	The same bounty board and rank card as in Eldoria.
Inn	Talk to the keeper for a free night: full health and mana.
Temple	A priest heals you and clears poison and other ailments.
Smithy	Sells the province's own gear and the gear of the province before it, plus Iron Sword, Chain Mail and Greater Potions. You can forge and upgrade here.
Tavern, apothecary, general store	Food, potions and supplies, as in Solmere.
Lantern	Rest to heal and to set your respawn point.
Notice board	Names the boss of the wilds and its reward.
Townsfolk	Nine people of many peoples walk the streets, each with lines about the city and its boss.

The wilds

Leave by the south gate. A lantern stands just inside the wilds. A road winds south to the boss lair, a ring of torches and bones; stepping inside wakes the boss and seals the ring. Around eighteen monsters of the province roam the wilds, and three chests hold gold and potions. In every third city the first chest also holds a piece of province gear.

Boss families and how to beat them

No two of the 108 bosses are the same. Each has one of six bodies, its own colours and size, two adornments (wings, crown, halo, shoulder flames, spikes, orbiting runes, a tail or chains) and two signature moves of its own.

Warlords	Orc, troll, ogre, gnoll, lizard, demon, frost giant and cinder brute. Cleaver swing at close range: dodge sideways. Charge along a marked line: sidestep, and if it hits a wall it is stunned. Leap slam onto a marked circle. Below half health it rages: a spinning attack, and it calls two goblins.
Beasts	Wolves, drakes, boars, bears, lions and stags. They fight like warlords: a lunging bite, a charge, a pounce and a tail sweep, and they howl for help below half health.

Knights	Fallen, rime, bone, gilded, blood, thorn, shade and dune knights. The shield blocks every hit from the front, so circle behind it. A three-hit mace combo, a shield bash along a line (it staggers if it hits a wall) and a quake of rock circles in a line. Below half health the visor burns red and it moves faster.
Golems	Stone, wood, ice, magma, crystal, iron and bone. They fight like knights, with fists, a shoulder charge and a ground quake, and their armoured front blocks hits too: strike from behind.
Sorcerers	Hollow kings, liches, frost witches, ember lords, tide priests, void prophets, sand pharaohs and bloom witches. Fans of crystal shards, crystal rain on marked circles and rings of light: keep moving. Below 60% health it adds a spiral of shards and blinks around the ring; below 28% it summons two acolytes.
Spirits	Watchers, flame wisps, abyssal jellies and masked spirits. They float and fight like sorcerers.

Signature moves

Ring of Force	An expanding ring: step through it, not away from it.
Shard Burst	Twelve shards in every direction: stand between them.
Meteor Fall	Five marked circles around you: leave them.
Starfall	Eight circles anywhere in the ring.
Call Minions	Two monsters of the province join the fight.
Shadow Step	It appears beside you and a short ring follows.
Regenerate	Heals 6% of its health: interrupt it with damage.
Ward	Immune to damage for about two seconds.
Cross Blast	Four lines of circles in a cross from the boss.
Vortex	Pulls you toward it: dodge outward.
Seeker Orbs	Three volleys of three orbs aimed at you.
Frenzy	Moves 50% faster for four seconds.
Ring Quake	A ring of circles around the boss: stay out of arm's reach.
Earth Lances	A fast line of circles toward you: sidestep.

The Heroines

BONDS, STAGES AND DATES

Four heroines live in Aurel. Each glows in her own colour (Mimi gold, Lyra ice-blue, Serah red, Noelle violet) so you can find her in a crowd. Bonds are measured in friendship, trust and affection, each from 0 to 100, and the Bonds tab in your journal shows all three, her ten-stage track and a diary of what you did together.

Chat (once a day)	She raises a topic with three answers. Every chat gives +2 friendship; once friendship is 20, a trust or friendship answer also gives +1 affection. Topics rotate in a fixed order.
Give a gift (once a day)	Loved: +8 affection, +4 friendship. Liked: +4 / +2. Neutral: +1 / +1. Disliked: -5 affection, -1 friendship. Before she counts you as a friend, a gift gives at most +3 affection. Her reaction is recorded, so the gift list shows her taste next time.
Ask about her	Below friendship 20 she talks about home. At 20 or more she tells you her past: +3 trust, written in the diary.
Ask her on a date (once a day)	Needs Close friendship. Each date passes two hours. The first good answer at each place unlocks a gallery scene.

Shared Heroine Events

TWO HEARTS, CAMPFIRES, BANTER, MARRIED LIFE

These events involve more than one heroine, or happen once you share a home.

Two hearts: a second partner

If you are already dating, engaged to or married to one heroine and try to confess to another, a scene starts with your current partner first. Tell her the truth: she agrees only with trust 75 and affection 80. Otherwise she refuses (-8 affection, -5 trust), and you can try again once the bond is stronger.

Campfire talks

Rest at a lantern with two or more heroines in your party. Once a day a campfire scene can play; each scene plays once and needs every heroine named below in your party.

Party	Opening line and choices
Mimi + Lyra	Lyra, can I touch your ears? Just once. For science. Choices: "They are very pretty ears." or "Mimi, personal space."
Lyra + Serah	Your frost slowed my advance twice today. Choices: "Lyra has a point." or "Serah has a point." or "You are both right. Combine them."
Serah + Mimi	*crunch* Choices: "Split it three ways." or "Mimi, give it back." or "Serah, let her have it."
Mimi + Lyra + Serah	What does the dawn mean to you guys? No choice; everyone gains friendship.

Banter on the road

With two or more companions, a short exchange plays every 70 to 110 seconds outside boss fights.

Mimi and Lyra	"Lyra! Race you to the next tree!" / "Running is an inefficient use of mana."
Serah and Mimi	"Mimi, stop chasing butterflies. We are on patrol." / "I am patrolling the butterflies!"
Lyra and Serah	"Captain, your armor squeaks at a distracting frequency." / "Then think louder."
Mimi and Serah	"Do you think our leader likes cake or tarts more?" / "...Cake. I have done reconnaissance."
Lyra and Mimi	"Mimi, you are humming again." / "It helps me walk! Hum with me!"

FORMATIONS, LINK ATTACKS AND LONE WOLF

The Party tab: formation, companion skill points, and Disband party / Regroup.

- Up to three companions travel with you. Choose Circle, Vanguard or Rearguard formation.
- Each companion earns skill points to spend on Power or Guard (up to 5 each).

- Fallen companions recover once the fighting stops, or at a lantern.

Elves	Long-lived and pointed-eared. Many are scholars or pilgrims.
Dwarves and halflings	Short and sturdy; dwarves favour beards, halflings favour second breakfast.

Orcs	Green-skinned and tusked, taller than most. Proud of their scars.
Dragonkin	Swept-back horns, cheek scales and a heavy tail.

After the final boss you can start New Game+. Enemies are stronger, and you keep your level, gear and skills.
